Our Committee shared its background and current / future scope of activities.

A more detailed outline of H.G. programs and plans included:

- Classes for both “start-up” and “growing business
- Becoming more “industrial” oriented
- Loan availability through investment groups
- Working with ‘non-profits’
- CEO leadership circles
- Website links
- Monthly “Partnership Sharing” meetings

Discussion continued on the following

- Swanzey has excellent commercial / industrial incubator space available
- Links between our respective websites would be productive
- Swanzey information could be included in the H.G.C. newsletter
- Future activities for SEDAC should include more interaction with business owners – guest speakers, open houses, etc.
- SEDAC should have one member as liaison to the H.G.C.
- Send a copy of our Survey results to Mary Ann.

It was agreed that increased involvement and support between our respective groups can be beneficial to all parties
